TUYMAADA

25th INTERNATIONAL OLYMPIAD

in Mathematics, Physics, Chemistry and Informatics

2018

Dear colleagues, participants,

Please accept my sincere congratulations on the occasion of the 25th anniversary of the *Tuymaada* International Olympiad!

The authors of the project conceived the idea of *Tuymaada* in order to identify, support and develop gifted children, expand friendly ties, create partnerships, integrate the Republic into the Russian and international educational space. It is safe to say that the idea was successful, the Olympiad has been effective and continues to develop.

For the 25th time now *Tuymaada* Olympiad creates numerous opportunities for the schoolchildren of many countries to apply their scientific knowledge, to show the level of their intellectual development, to confirm their future career choice.

This year the 25th *Tuymaada* International Olympiad is organized as part of Yakutia International Science Games (YISG). The Olympiad is one of the main competition events. The winner team will compete for the Grand Cup and, maybe, the results of the *Tuymaada* Olympiad will play a key role in the team scoring of the YISG.

I am especially grateful to our distinguished teachers, trainers, jury members, organizers, and enthusiasts of the Olympiad movement for supporting our initiatives, for your devotion and believing in your students, and for your sincere desire to help them!

I am sure that together we can make the *Tuymaada* Olympiad a bright and unforgettable moment in the lives of every one of us as a celebration of intellect, creativity and communication that will help us to find new friends and like-minded people, and make one more step on the path towards success.

Dr. Vladimir Egorov
